Town of Whitestown Public Streets - Snow Removal Notice

In order to ensure adequate and thorough snow removal from public streets, during winter snow events, all private vehicles parked on public streets should be removed by owners so that snow removal efforts by private contractors within residential subdivisions and snow removal efforts by Town crews on other public thoroughfares can be conducted without obstacles blocking snow plows. This will ensure efficient snow removal so that streets and roads are cleared for school buses, vehicular traffic, pedestrians and emergency vehicles.
