

# LEGACY CORE ALLEY ASSESSMENT

The Town of Whitestown

June 2016

## ATTENTION RESIDENTS

As a joint effort between the Town of Whitestown Building and Planning Department, the Department of Public Works, and the residents of Legacy Core; we will be surveying all of the alleys in the Legacy Core. In an effort to establish and re-establish our alleys, we ask for your patience and cooperation with our efforts.

### We need your help:

We ask that during this joint effort, you help the town by clearing out the alleys of non-permitted items. Some alleys in the Legacy Core belong to the town, so in order for this project to work we need residents to clear these alleys of items including but not limited to; sheds, garages, storage, trailers, and personal items.

### What you can expect:

This project will begin in June 2016. You will begin to see surveyors from GRW placing stakes outlining the alleys through out old town. We ask that the alleys be cleared by June in order for GRW to complete their work.

## Vision Statement

*From Downtowns Revitalization Plan*

*Downtown Whitestown will:*  
**Create a sense of identity** by embracing its small town character and cultivating a diverse base of uses and activities.

**Preserve its character** as a safe, involved community while creating a setting where residents can easily walk to locally owned businesses visit with neighbors, and attend local events.

**Become a destination** for residents and visitors by celebrating its culture and past while allowing for new businesses and hosting community focused events.
